PROFESSIONAL SUMMARY

MERN Stack Developer with 8+ months of internship experience building production-grade web applications and AI-integrated platforms. Proficient in React.js, Node.js, Spring Boot, MongoDB, and REST APIs. Delivered secure, scalable full-stack solutions across HRMS and Robotics/AI domains. Experienced in designing responsive user interfaces, integrating third-party APIs, and optimizing application performance for improved user experience. Seeking a Full Stack Developer role to contribute to high-impact products.

EXPERIENCE

Robotics & AI Intern | [Pushpak O2](#)

Jan 2026 – Apr 2026 • Bhopal, India

- Developed and integrated ML models for robotic pathfinding and object recognition, improving operational efficiency by 15%.
- Designed real-time data processing pipelines for sensor feedback, enabling immediate adjustments to robotic actions with <50ms latency.

Full Stack Intern | [Netligent Technologies Pvt. Ltd.](#)

May 2025 – Aug 2025 • Bhopal, India

- Built and maintained HRMS applications using React.js, Node.js, Express.js, and MongoDB in an Agile team of 6 developers.
- Developed 15+ RESTful APIs with JWT authentication, reducing unauthorized access incidents to zero.
- Optimized MongoDB queries and indexing, improving application load time by ~25%.

PROJECTS

Property Rental Platform | [Full Stack — MongoDB, Express.js, React.js, Node.js \(MERN Stack\)](#)

- Built a MERN-based property rental application serving 3 distinct user roles with role-specific dashboards and permissions.
- Developed secure backend services using Node.js, Express.js, MongoDB, and JWT authentication for user management and booking operations.
- Created responsive front-end modules in React.js, facilitating property discovery, filtering, and reservation processes with seamless API integration.

VoiceVerse AI | [Full Stack — React.js, Node.js, AI APIs](#)

- Built an AI-based text-to-speech application with secure third-party API integrations and scalable architecture.
- Improved audio processing efficiency, reducing voice synthesis response time to under 2 seconds.
- Created responsive front-end interfaces, ensuring 100% compatibility across desktop and mobile devices.

Interview AI Agent | [TypeScript, React.js, Generative AI, REST APIs](#)

- Built an AI-driven interview preparation platform with 500+ role-based question generation capabilities.
- Designed and implemented automated response analysis to assess candidate performance in technical and HR interviews.
- Enhanced candidate preparedness through personalized feedback systems, improving mock interview readiness by 35%.
