SUMMARY

Full Stack Developer with expertise in Java, Spring Boot, React.js, Node.js, MongoDB, MySQL, and Python. Experienced in developing scalable web applications, RESTful APIs, authentication systems, and database-driven solutions. Strong foundation in MERN Stack, frontend and backend development, performance optimization, and software engineering best practices.

EXPERIENCE

Robotics & AI Intern

Pushpak O2

January 2026 - May 2026, Bhopal, India

• Developed custom data preprocessing scripts in Python to enhance the quality and diversity of training datasets, increasing reliability of computer vision model outputs in robotics workflows.

Web Development Intern

CodeSoft

September 2025 - October 2025

• During my internship at CodeSoft, I worked as a Front-End Developer, where I built responsive web applications using HTML, CSS, JavaScript, and React.

Full Stack Intern

Netligent Technologies

May 2025 - August 2025, Bhopal, India

• Contributed to an enterprise HRMS platform using React.js, Node.js, Express.js, and MongoDB, developing secure REST APIs, authentication systems, and scalable backend services.

PROJECT

Property Rental App

Self-Developed Project • February 2026 - March 2026

• Built a Property Rental Management Application with React.js, Node.js, Express.js, MongoDB, Spring Boot, and MySQL. Developed secure authentication, property listings, booking workflows, REST APIs, and responsive user interfaces while optimizing application performance and database operations.

VoiceVerse AI

Self-Developed Project • January 2026 - February 2026

• Built an AI-powered voice platform enabling text-to-speech conversion and voice generation using React.js, Node.js, and AI APIs. Developed secure API integrations, responsive UI components, and optimized audio processing workflows for enhanced user experience.

Interview AI Agent

Self-Developed Project • January 2026 - January 2026

• Built an AI-powered interview platform using TypeScript and Generative AI that conducts mock technical and HR interviews. The system generates role-based questions, analyzes responses, and provides personalized feedback to help users improve their interview skills and confidence.

EDUCATION

Bachelor of Computer Applications (BCA)

M.K. Ponda College of Business & Management • Bhopal • 2023 - 2026

Higher Secondary Education (12th Grade)

MP Board – Surbhi Vidhiya Niketan Higher Secondary School • 2022 – 2023

Higher Education (10th Grade)

MP Board – Surbhi Vidhiya Niketan Higher Secondary School • 2020 - 2021

CERTIFICATIONS

Full Stack Internship Certificate (3 Months)

Netligent Technologies Pvt. Ltd., Bhopal • 2025

Web Development Internship Certificate

CodeSoft • 2024

SKILLS

Languages: Java, JavaScript (ES6+), Python, HTML5, CSS3

Frameworks & Libraries: React.js, Redux, Node.js, Express.js, Spring Boot, Hibernate, JPA, Bootstrap, Tailwind CSS, Axios

Tools & Platforms: Git, GitHub, Postman, Docker, AWS, JMeter, VS Code, IntelliJ IDEA

Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, MVC Architecture, Microservices Architecture, Database Normalization, Database Indexing, Software Development Life Cycle (SDLC), Responsive Web Design, Performance Optimizatio

Full-Stack Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js), Java Full Stack Development, Spring Boot Architecture

Backend & APIs: RESTful APIs, API Integration, Authentication & Authorization, JWT Authentication
